

HS310 Human Growth & Development across the Lifespan

May 25th – June 9th, 2018

This course covers the psychological, biological, cognitive, social and emotional changes that occur throughout the human lifespan. It includes pre-natal stages through death and dying. Students will be introduced to both classic and new and emerging theories of development as they gain an understanding of the dynamic inter-relatedness and relationship between biology and environment in human growth and development. Enjoy group dinners at a variety of local pubs, excursions to see surrounding archeological sites, an overnight trip to beautiful Killarney, a day trip to the Blasket Islands, and more. For more information, contact Prof. Christina Gunther (guntherc@sacredheart.edu).

Apply by February 15th, 2018
